ACCENTURE | DEVELOPER VIRTUAL INTERNSHIP

- Completed virtual developer internship at Accenture.
- Worked upon Debugging algorithms, Unit testing, User Acceptance Testing - UAT, Security maturity assessment, IAM policies and permissions, Securing the software development, Data and privacy

PROJECTS

MYNTRA CLONE | E-COMMERCE WEBSITE (TEAM-PROJECT)

<https://myntra8.netlify.app>

Developed a team project, contributing to the homepage of a Myntra clone using HTML, CSS, and JavaScript. Achieved 1st rank in project presentation, demonstrating effective collaboration and technical expertise. Learned front-end development skills and gained experience in UX design and presentation delivery.

MWENDO AFRICA | CAR RENTAL WEBSITE (TEAM-PROJECT)

<https://mwendu-cw2.netlify.app>

Contributed to the development of the products page on the Mwendo Africa car rental website. Implemented filter and sorting functionality to enhance user experience. Collaborated with the team to ensure seamless integration and functionality. Acquired experience in front-end development, specifically in implementing filtering and sorting features.

KEY LEARNINGS:

- Collaboration and Teamwork: Working as part of a team taught me the importance of effective communication, task delegation, and coordination to achieve project goals.
- Front-end Development Skills: Implementing the homepage using HTML, CSS, and JavaScript improved my proficiency in building responsive and visually appealing web pages.
- User Experience (UX) Design: Creating a user-friendly interface and incorporating features like carousels and slideshows deepened my understanding of enhancing the overall user experience.
- Presentation Skills: Participating in project presentations sharpened my ability to articulate and demonstrate project concepts and achievements effectively.
